Professional Experience

Founding Engineer

Togather | New York, NY | Mar 2025 – Apr 2026

- Built scalable credit-based purchasing system with real-time balance updates and transaction histories.
- Launched Progressive Web App version, increasing returning user engagement by 30%.
- Leveraged Claude Code with prompt engineering to reduce development time and ship faster.

Senior Software Engineer

Rue21 | Warrendale, PA (Remote) | Feb 2024 – May 2024

- Identified and fixed payment flow edge case that redirected users during checkout flow, improving purchase completion reliability.
- Implemented lazy loading and code splitting, reducing load time by 25%.
- Optimized React components with memoization and Context API, reducing unnecessary re-renders by 20%.

Full Stack Software Engineer

Once Upon a Time Hospitality | New York, NY | Dec 2022 – Jan 2024

- Standardized git processes resulting in a 25% reduction in environment issues and reducing time waste.
- Led transition from a limited in-house content management system to a more reliable third-party provider.
- Migrated 10+ client sites from ReactJS to Next.js, improving average site load times by over 20%.

Lead Frontend Engineer

Quadency | New York, NY | Jan 2021 – Dec 2022

- Developed QuadX trading widget with real-time updates, resulting in a 25% increase in user engagement.
- Built end-to-end bot fees experience, generating a 15% rise in revenue from trade executions.

Systems Integration Engineer

Summitworks Technologies | South Plainfield, NJ | Jun 2019 - Dec 2020

- Integrated SAP Concur with Workday, automating expense reporting and HR data synchronization.
- Leveraged Concur APIs and middleware, cutting approval and reimbursement processing times by 30%.

Education

Rutgers University - B.S in Supply Chain Management
Aug 2012 – May 2017

Newark, NJ
